

THE 6 CRITICAL PRACTICES FOR LEADING A TEAM™

The Challenge For People-Leaders

People-leaders make a significant impact on every metric in your business: employee productivity and engagement, customer satisfaction and loyalty, innovation, and financial performance. They are the creators and carriers of culture for their teams and directly influence whether top talent stays or leaves. They are frequently responsible for the quality of the customer experience, and these leaders and their teams are the biggest sources of product and process innovation. Your people-leaders are the “Difference-Makers” in your business.

A leader's role has always been tough and today's realities make the role even tougher. People skills typically account for 80 percent of success in this role. Yet many people are promoted because of their technical capabilities. Both new and experienced leaders can struggle when it comes to excelling at leading people in today's workplace.

Introducing *The 6 Critical Practices For Leading A Team*

This solution equips people-leaders with the essential skills and tools to get work done with and through *other* people. The program is ideal for new leaders who need to transition successfully from individual contributors to leaders of others. It also applies to more experienced leaders who have been in their roles for some time, and are looking for practical and relevant guidance on how to effectively lead and manage their teams.
